## **Our Solutions**

### **Safe Water for Communities**

We design and implement customized, sustainable safe water solutions in hard-to-reach communities.

### **Disaster Response**

We provide emergency safe water and implement long-term solutions that help communities better prepare for future disasters.

### **Safe Water for Refugees**

Our best-in-class solutions help people in refugee camps experience healthier and more dignified living conditions.

### **Living Water**

When we build safe water solutions, communities witness Water Mission and their local church working together. This opens doors for us to share the gospel.

Access to safe water changes lives, building health and hope. It creates educational and economic opportunities that break the cycle of poverty. Water Mission is working around the world to transform lives because water builds:

**Life** for men, women, and children who now have access to clean, safe water.

**Health** for those who have been provided with dignified sanitation solutions.

**Education** for children who are healthy enough to go to school.

**Hope** for displaced people living in refugee camps.

**Relief** for survivors impacted by hurricanes, earthquakes, floods, and other disasters.

**Faith** for church leaders through Living Water training that helps them teach others about God's love.
