

# HANDWASHING STATION OPERATOR RESPONSIBILITIES

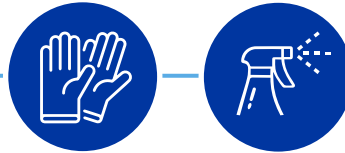

## Ensure Soap and Water Availability

- Treated water is preferred
- Soap will be provided for each station
- Regularly refill soap supply at the station
- Regularly refill station water container

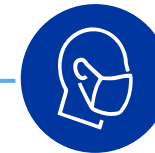

## Regularly Disinfect Stations

- Prepare 0.5% disinfection solution
- Wear gloves when handling chlorine solutions
- Disinfect at least once a day
- Disinfect high touch stations more often
- Disinfection spray bottle and cloths will be provided

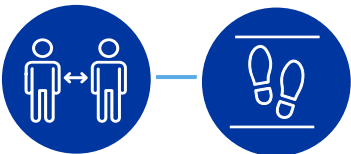

## Wear Face Mask Appropriately

- Wash your hands before putting on and after taking off mask
- Make sure there are no gaps between your face and the mask, and that it covers your mouth and nose
- Avoid touching mask while using it. If you do, wash your hands. Replace the mask as soon as it is damp
- Remove mask from behind. Do not touch the front of the mask. Wash cloth masks after use.

## Ensure Social Distancing Practice

- Ensure 2m (6') separation between users washing hands
- Ensure 2m (6') separation between people in the queue
- Maintain ground markings

## Manage Wastewater Disposal

- Ensure wastewater systems are functioning properly
- Empty station wastewater containers into proper disposal systems
- Remove debris from systems to keep wastewater from pooling

## Maintain Station Cleanliness & Security

- Ensure trash is disposed of properly
- Keep area around the station clean and free of debris
- Bring mobile stations inside secure areas
- Ensure locked stations are secure overnight
- Ensure chains around stations are functioning
