

Program Development Internship

Who is Water Mission?

Water Mission is a nonprofit Christian engineering organization that designs, builds, and implements safe water, sanitation, and hygiene (WASH) solutions for people in developing countries and disaster areas. Guided by love, excellence, and integrity, we are driven to share clean, safe water and God's love with all. To date, we have served more than 7 million people in 57 countries.

What is the opportunity?

The Program Development intern will work closely with the Water Mission Program Development team and report directly to our Sr. Program Design Specialist within the department of Program Development and is based in North Charleston, SC, with the option to work remotely.

The scope of this internship may include:

- Conduct research and literature reviews on different water service delivery models related to our countries of operation
- Contribute to developing program processes and toolkits
- Support current project needs, including research and supporting program development for water utility service delivery and business modeling using an asset-based and human design approach
- Other duties as assigned

What is required?

- Major in Public Health, International Studies/International Development, Anthropology, or Related Field, Senior Year or Above
- Candidate will have research skills, be highly organized, be task-oriented, and enjoy working in a collaborative space.
- Candidates should understand basic international development and behavior change principles.
- Candidate is curious and able to manage projects and meet deadlines
- Candidate has strong cross-cultural written and verbal communication skills
- Familiarity with WASH and program design preferred.
- Ability to commit to 20-30 hours per week is preferred
- Strong written and verbal communication skills, familiarity with Spanish is a plus
- Familiarity with conducting complex statistical analyses is a plus
