

Education Initiative™

CREATE WATER SUPERHEROES

Grades: K-6

Materials: Paper, pencil, crayons or markers, and materials about the global water crisis

Access to clean, safe water is a major challenge in many countries. Many children around the world don't have safe water to wash their hands. Sometimes this is due to natural disasters like hurricanes, tsunamis, earthquakes, or monsoons. Other times it is because of the climate and landscape where. They may live where there is a drought or where there is lack of fresh water sources.

SUPERHERO

Comic books and movies are full of superheroes with extraordinary power. These heroes use their powers to solve problems. What kind of superhero could solve the global water crisis? What skills, tools, or powers would the superhero need to give everyone access to clean, safe water?

Think about the questions above. Draw your superhero. Don't forget to give your superhero a name!

SHARE YOUR CHARACTER/SUPERHERO

Take a photo of your superhero and ask your parents to share it with us on Facebook or Instagram.
